

# New residences in Wättinge near Granängsringen

## 800 residences in Wättingebacken

We plan to build a large number of houses alongside Granängsringen, in a new residential area called Wättingebacken. The area will contain 800 residences in total, several preschools and accommodations for people with special needs. There will be buildings of different types: Apartment buildings built around a common courtyard, park houses and terraced houses. Most of the residences will be tenant-owned apartments. Wättingebacken together with Wättingestråket forms Wättinge – a place for people to thrive!

## An even better Wättingestråket

Wättingestråket is the passage running from Tyresö city centre to the lake Tyresö-Flaten. At the same time as we plan Wättingebacken, we are also developing Wättingestråket. A new park for dogs, improved pedestrian and bicycle paths and a parkour park are a few of the things already completed. More improvements are to come, although it is also in our greatest interest to preserve the beautiful nature defining Wättingestråket.

## Planning the first phase

It will take several years to plan and build Wättingebacken. Therefore, we have divided the project in phases, planning the first phase now. It is located in the southern part of the area. Right now we focus on designing the size of the buildings and their exact position.

## Meeting on December 12

Since you live nearby the new residential area, we would like to know what you think of the first

designs. Come and see us at an open house on Granängsringen 24 on December 12, between 01.00-02.00 p.m. and between 06.00-08.00 p.m. We introduce Wättinge and present images and sketches. We focus especially on the first phase of Wättingebacken. See you there!

If you are not able to attend the meeting, please visit our website to read more about Wättinge and leave your opinions by email. We would like to hear from you on January 8 at the latest.
